

12 January 1965

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

**SUBJECT: National Intelligence Survey (NIS)
 Production Forecast for Fiscal Years 1966, 1967**

REFERENCE: USIB-M-334, 24 June 1964

1. In accordance with the reference the NIS Committee forwards to USIB the attached NIS Production Forecast which the Committee has developed for fiscal years 1966 and 1967.

2. The Forecast extends for the two fiscal years the pattern of production priorities by topics and foreign areas which USIB approved for the FY 1965 production schedule.

3. The attachment groups by major world regions the countries on which NIS production is forecast during the two years. Africa will receive the largest production emphasis, accounting for some 26% of total NIS coverage forecast for the period. Latin America is second, with approximately 20% of the total.

4. The General Surveys will provide nearly 60% of the total coverage forecast for the two years. This reflects the increased emphasis on the one-volume General Survey as the primary unit in selective and accelerated NIS coverage.
